This group's priority is all about developing new and deep friendships for u3a Members On Their Own. We also try to entertain you, but before you say "the activities do not appeal to me" please remember **all events can only exist based on YOUR ideas and assistance (see overleaf)!** Please also try to encourage non-attenders and newbies, perhaps by offering a lift?

Hitherto Joy has put a lot of effort into publishing and publicising a Programme to attract and retain members. Despite core members invaluable help, she cannot supply ideas and plan most events alone.

Our informal Programme is thus now on hold, awaiting YOUR further input.

Some people don't like having a Programme at all, and think more ideas will develop organically at our monthly meetings and via WhatsApp. **You must be there, to influence and/or host our events!**
